

A clear brand system.

The supplied purple-and-gold identity, refined for consistent website use.

CORE PALETTE / EXACT VALUES RETAINED

				
Royal purple #3B1E6D	Warm gold #C9A24A	Ivory white #F8F6F0	Soft lilac #DCCFF0	Deep ink #1F1930
Headings, primary actions, active navigation.	Hero action, key details, restrained accents.	Reading surfaces, forms and schedules.	Selected tabs and supporting surfaces.	Body text, dark overlays and footer backgrounds.

01 / TYPOGRAPHY

The 5th Medical Students Research Conference

Explore the program. Share your research.

DM Sans 600 / 700: headings and buttons.
Inter 400 / 500: body copy, dates and schedules.

Website baseline: 16-18 px body text with generous line spacing. Keep body tracking normal; use spaced capitals only for short labels. For Arabic pages, pair with Noto Sans Arabic and a mirrored layout.

02 / READABLE COLOR PAIRS

Ivory on purple: 12.20:1
Ink on gold: 7.06:1

Use purple or ink for text on ivory. Gold on ivory measures 2.22:1, so reserve that pairing for decoration. Gold text on solid purple measures 5.49:1.

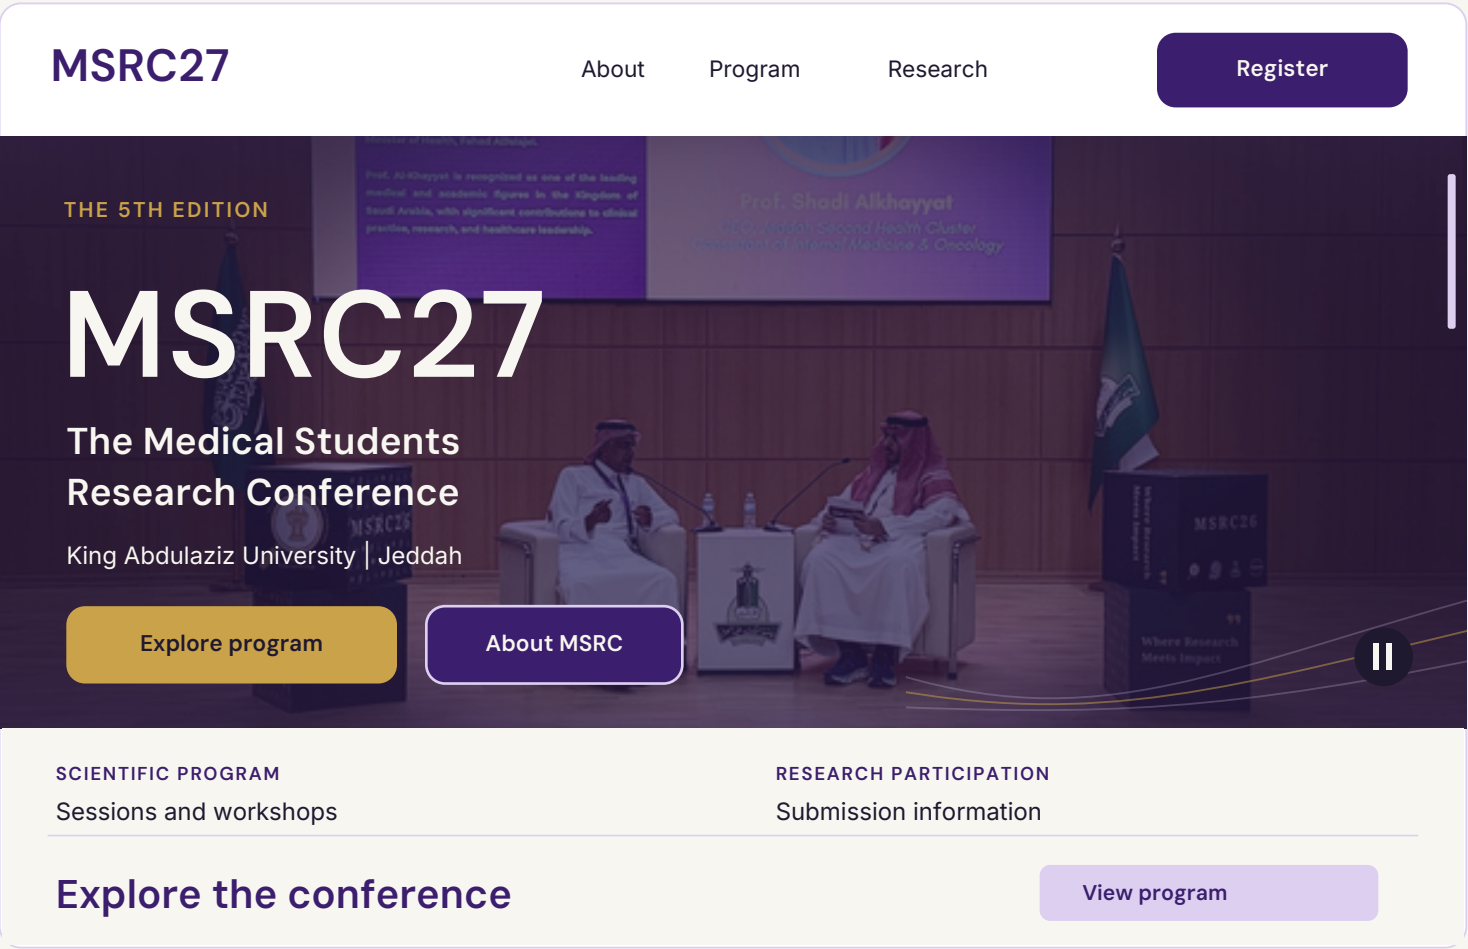

Normal-text target: at least 4.5:1 (W3C SC 1.4.3). Recheck text over every frame of the final hero video.

Flat source logos, original proportions and colors. Keep institutional marks in a clear logo strip. Proposed clear space: 25% of the mark height.

Website application.

A cinematic entrance, clear conference content, and responsive interaction.

Illustrative desktop composition. Past-edition image from the supplied main file, p. 12; final content and actions follow the approved website requirements.

180 ms / Buttons

Lift 1-2 px on hover; press to 98%. Use a clear focus ring.

400 ms / Reveals

A 12 px rise and short fade, once. Keep content available.

Native / Scrolling

Smooth anchor jumps. Preserve wheel, drag, touch and keyboard control.

01 / Video entrance

Muted conference footage, an ink-purple overlay, ivory titles and one gold action. Include a pause control and a still-image fallback.

02 / Reading surfaces

Ivory sections carry program details and forms. Purple provides hierarchy; deep ink keeps longer text comfortable to read.

03 / Signature detail

Use the wave at section edges and in the footer. Give photography, headings and clear spacing the main visual weight.

04 / Mobile behavior

Stack entry points and use 44 px touch targets. Crop footage for the screen; honor reduced-motion preferences and keyboard navigation.
